

# MID VALLEY DISPOSAL RESOURCE RECOVERY FACILITY

50,000 square feet of advance recovery and sorting technologies, including glass processing and optical sorting technology

Three MSS optical sorters  
CIRRUS® FiberMax™,  
CIRRUS® PlasticMax™

This new state-of-the-art system recovers cleaner cardboard, mixed paper, glass, and plastic

With the help of 61 employees, this facility processes 35 tons per hour of residential and commercial material

**DESIGNED AND MANUFACTURED**  
by CP Group of San Diego, California

Over 95% of recyclables are recovered for 12,000 commercial accounts and also for 75,000 households

# “RESOURCE RECOVERY FOR TOMORROW, TODAY”
